# Become a Love and Logic Parent

with Katie Solum, trained presenter of Love and Logic Institute out of Colorado

## Practical skills for parenting children of all ages!

Would you like to decrease power struggles, feel more confident as a parent, have more fun, feel more relaxed?

Parenting with Love and Logic is an approach to raising kids that provides loving support from parents while at the same time expecting kids to be respectful and responsible. Parents want their kids to be well-prepared for life and they know this means kids will make mistakes. Through this program, you will learn how to hold your kids accountable with logical consequences but with empathy, love, and understanding.
